## Skills

- **Languages** : Java, C++, Python
- **Frameworks** : HTML, CSS, Django
- **Tools/Platforms** : MySQL, Power BI
- **Soft Skills** : Problem-Solving Skills, Leadership, Communication Skills, Adaptability

## Training

- **CipherSchools (Edtech Company)** Link — Jul' 2025
  Machine Learning with Data Science
  - Performed Exploratory Data Analysis using NumPy and Pandas, leading to a 20% reduction in data preprocessing time.
  - Developed, trained, and evaluated various Machine Learning models, including Linear Regression, KNN, SVM, Decision Trees, K-Means, and Ensemble Methods using Scikit-learn, achieving an average accuracy improvement of 15%.
  - Employed feature engineering techniques to enhance model performance by 25% for predictive analysis.

## Projects

- **TravelPro – Bus Booking Web Application** Link — Mar' 2026
  - Designed a responsive modular interface using HTML, CSS, and JavaScript, ensuring smooth navigation and a consistent user experience across different devices and screen sizes.
  - Implemented structured frontend components to display travel destinations, trip details, and other related information for efficient browsing and user interaction.
  - Organised travel content and interface elements to improve usability and accessibility of travel-related information across the platform.
  - Used Git for version control and collaborative development while maintaining a clean and well-structured project repository.
- **Luxe Shop – Perfume E- Commerce Website** Link — Feb' 2026
  - Built a complete e-commerce solution using Django (MVT architecture), featuring a secure user authentication system and dynamic product catalog.
  - Engineered the backend logic for a functional shopping cart and seamless checkout process, ensuring accurate order processing and database management.
  - Constructed custom admin dashboard to handle real-time inventory updates, product listings, and orders.
  - Designed a responsive frontend using HTML5 and CSS3, integrating it with MySQL and SQLite database for efficient storage and retrieval of data into the website.
- **AI Job Trends and Forecasting Dashboard** Link — Dec' 2025
  - Developed a multi-page Power BI dashboard (Home, Executive Summary, Salary Analysis, and Skills Insights) to visualize global AI employment trends and market momentum.
  - Performed deep-dive analysis on compensation over different job roles, identifying growth in senior AI and ML positions and emerging global talent hubs.
  - Identified and mapped high-demand technical competencies – especially Python, Machine Learning, and Cloud technologies – to guide career and hiring strategies.
  - Integrated predictive insights to forecast steady future growth in the AI sector, highlighting the industry transition toward scalable, real-world AI implementations.

## Certificates

- Tata - GenAI Powered Data Analytics Job Simulation Link — Sep' 2025
- NPTEL – Cloud Computing Link — Apr' 2025
- Generative AI Foundation Course Link — Mar' 2024
- Responsive Web Design Link — Nov' 2023

## Achievements

- 3 Achiever DSA badge on Code360(Coding Ninjas) Link — Jan' 2026
- 190+ questions on Code360(Coding Ninjas) Link — Dec' 2025

## Education

- **Lovely Professional University** — Punjab, India
  *Bachelor of Technology - Computer Science and Engineering;* ***CGPA: 8.26*** — *Since August 2023*
- **Vertex Global School** — Sardar Nagar, Gorakhpur
  *Intermediate;* ***Percentage: 91.6%*** — *April 2019 - March 2021*
- **St. Joseph's School** — Khorabar, Gorakhpur
  *Matriculation;* ***Percentage: 90.3%*** — *April 2017 - March 2019*
